OBJECTIVE

Software Engineer with 6 years of experience in building web and mobile applications, seeking full-time SDE roles.

Education

Masters of Science in Information Technology, IIIT Hyderabad — 2019
Bachelor of Technology, ECE, St.Martin's Engineering College — 2012 - 2016

SKILLS

- **Technical Skills:** Nodejs, Reactjs, Nextjs, React Native, MySQL, MongoDB, Microservices, Microfrontends, Git
- **Soft Skills:** Leadership, Agile Sprint Methodolgy, Proactiveness, Critical Thinking

EXPERIENCE

Frontend Developer
Lyzr AI, *Remote, USA* — Nov 2023 - Present
- Developed a suite of frontend applications, including a portable AI chat agent widget and a Perplexity AI-style knowledge search platform with public sharing capabilities.
- Engineered an application to provide influencers with custom landing pages and integrated chatbots.
- Led the development of a no-code builder for AI agents, incorporating complex forms, robust validations, and essential authentication features such as Memberstack integration for role-based authorization and plan purchases.
- Optimized listing pages for enhanced performance and speed, contributing to overall application efficiency.

Fullstack Developer
Bintix Waste Research, *Hyderabad, IN* — Nov 2022 - Oct 2023
- Spearheaded full-stack development for multi-portal platforms (admin, datalabs, profiling, customer-facing), serving over 27,000 users.
- Developed dynamic dashboards with modular components, real-time progress, and comprehensive reporting, significantly boosting user engagement.
- Resolved mobile payment system issues and integrated critical features such as barcode scanning and image attachments.

Senior Software Engineer
Valuebound Consulting, *Remote, IN* — Aug 2021 - Nov 2022
- Led development of 5 admin interfaces with custom forms and access control, enhancing system usability.
- Optimized frontend performance for key applications by implementing pagination, API caching, and server-side filters.
- Improved code quality and efficiency by 40% through developing optimized search features and mentoring a team of 4 engineers.

Software Engineer
Auzmor, *Hyderabad, IN* — June 2019 - July 2021
- Built an e-commerce module using React JS with Semantic UI for a corporate learning platform catering to a user base of 100K+.
- Developed responsive and functional user interfaces from Figma designs by integrating them with backend RESTful APIs.

PROJECTS

- **Course Comparator Tool:** Built a tool to review and compare courses for students by using ReactJS, NodeJS, MongoDB. Institutes can create account and post courses to receive genuine reviews! compare-course.vercel.app
- **Therapist booking tool:** Built a project that helps users search and book therapists using ReactJS, NodeJS, Prisma, Postgresql, Razorpay. friend-indeed.netlify.app
